

Pharmaceutical Solutions

You can count on Neff's experience with sterile and tamper resistant packaging for your over-the-counter or behind-the-counter packaging solution. Neff uses coating, printing, and holographic production to provide you with the brand protection you need.

Neff develops compliant pharmaceutical packaging solutions that build brand awareness by designing packaging that creates a strong shelf presence. Whether developing cartons, printed inserts, or mailers, we offer expertise in successful pharmaceutical packaging that makes a difference.

Heat Seal Blisters

- We meet critical heat seal blister packaging requirements.
- Our processes have improved run speeds for our automated pharmaceutical customers.
- Precision die cutting capabilities and attention to detail ensure the highest quality heat seal blister packaging made to exact specs.
- Our computer-to-plate technology enables consistent color match between blister packaging and component packaging.

Superior Designs

- Our superior design capabilities and wealth of experience enables cost-efficient, machine-effective packaging alternatives.
- Our fact-finding approach tailors solutions specifically to your exact needs.
- We know how to blend packaging functionality with graphic design ensuring the best match between marketing and production requirements. The end result drives sales up and total production costs down.

Professional Samples

Neff can also provide ideal packaging designs for sampling solutions that deliver a new product launch or promotion directly to your target consumers, or to professional markets. This will give your brand the head start it needs to grab market share when it hits general distribution at the retail level.

Neff tackles your business challenges with solutions

With 50 years of experience in the packaging industry, our high quality creative designs can differentiate you from your competition while increasing your margins.

Our attention to quick turnarounds, and the ability to reduce production costs downstream, translates to increased profitability for you!

■ Medical Products Solutions

Neff has experience with the packaging of sterile and infection control products for use by hospitals and alternate site healthcare facilities. We adhere to current Good Manufacturing Practices (cGMP).

- We have experience with industry leaders in providing packaging for medical components.
- We are able to meet the stringent requirements in areas such as sterility, drop testing, and ease-of-use in hospital and surgical applications.
- We have litho-laminate capabilities on fluted material when extra strength and protection is required for sensitive or delicate medical devices.
- We can provide lot traceability back to our raw material suppliers and provide barcode scanning features to assist you in making sure your product is reaching its intended market.
- Customized anti-counterfeit measures assist in managing the threat of the global counterfeit business now estimated at over 7% of world merchandise trade.

Neff has proven solutions to help you with ...

- Increasing Market Share
- Increasing Profit Margins
- Increasing Speed-to-Market
- Designs that Differentiate
